INNOVATION

CUSTOM SOLUTIONS

Lynx offers more than 400 different liquid, powder and process chemicals to meet a multitude of applications. Each product is designed to maximize cleaning and be environmentally friendly. Our **Drum-Buster®** storage system and super concentrate program allows for various dilution options, which controls costs and manages inventory efficiently.

When special needs require a custom formulation, our experience and state-of-the-art laboratory is available to create and quickly deliver a solution to solve your industry-specific problem.

QUALITY CONTROL

Lynx manufactures and delivers a diverse line of cleaning products. With no "middle man," your Lynx representative is your partner in the design and planning of an efficient cleaning regimen.

Each batch is tested and documented to meet strict quality control standards. This ensures that your cleaning operations will always yield the same results—no surprises or need to repeat an operation.

Our state-of-the-art laboratory monitors the quality control of all Lynx products and maintains vigilance in product improvement, environmental regulation and product development.

SPECIALTY PROCESSING PRODUCTS

Meat processing plants, dairy, commissary, bakery and poultry processing plants require different cleaning processes. Each plant relies on their facility and equipment to be cleaned correctly, quickly and economically the first time. We know that any down time takes away from the core business. The safety of the product and the effectiveness of cleaning go hand-in-hand in making a successful operation in any industry. Lynx is your partner in the development of these systems.

Products developed specifically for the beverage industry include: patented line lubes, sanitizers, CIP cleaners and a full range of general cleaners.

Your Lynx representative can also help you with training and compliance:

- HACCP development
- Sanitation protocol and procedures
- Employee training
- EPA and OSHA regulations

Products For:

Equipment, Floor & Walls
 Complete Sanitation
 General Cleaning
 Line Lubes
 Final Sanitation

FOOD & BEVERAGE SANITATION

Lynx has years of experience in the food and beverage industry and has developed many application-specific cleaners, tailored to these critical sanitation needs.

Alkaline cleaners are available in mild, strong and chlorinated formulas. A full range of general, citrus, chlorinated and specialty cleaners and sanitizers are available. Your situation may require a custom solution and Lynx is ready to meet any need. Lynx cleaners are environmentally friendly and are safe on aluminum, stainless steel and polycarbonate surfaces.

Look to Lynx for products specifically designed for:

- Floor and wall cleaning in a food processing environment
- Complete sanitation solutions
- Process equipment cleaning
- CIP/COP cleaners
- Line lubricants

Food processing presents unique cleaning problems, including food contamination. Knowledge of these contaminants is critical, and Lynx provides specific cleaners and sanitizers designed to prevent contamination when used properly.

Check Out Our Foamers:

- ❖ Less Product Waste and More Efficient Use of Chemicals
- ❖ Use Our High Foaming FDA Approved Sanitizers and Chlorinated Cleaners
- ❖ “Hang Time” of Foam Gives the Sanitizers More Time to Work on Hard to Clean Surfaces
- ❖ Custom Installations for any Cleaning Application

DRUM-BUSTER[®]

Innovative Cleaning Solutions

Refill Line —

DRUM-BUSTER[®]

The most efficient way to manage your cleaners and process chemical inventory is the **Lynx Drum-Buster[®]** program. Eliminate costs associated with delivery and disposal of drums, along with the waste inherent in using drums. Using a single, refillable tank, the **Drum-Buster[®]** program maximizes both cleaning operation efficiency and safety for your employees.

Order exactly what you need. Lynx provides the free storage system to you, and your cleaning solution is pumped directly into a **Drum-Buster[®]** storage tank, using a metered delivery pump. You are billed for only what you use, which in turn, controls costs and maximizes operations. Eliminate the time spent changing barrels, hauling products and taking inventory. The **Lynx Drum-Buster[®]** program provides the safest way to handle these chemicals.

Your **Drum-Buster[®]** Tank is designed specifically for your needs. Your Lynx representative will help you design a total storage system tailored to your size, cleaning operations and environmental restrictions.

Along with specially designed formulations, the **Lynx Drum-Buster[®]** program is designed to work with our complete line of specialty equipment. Your Lynx representative can show you how the Total Lynx System will maximize efforts while controlling cleaning costs.

GENERAL MAINTENANCE

A clean working environment is essential for productivity and efficiency. Lynx offers innovative solutions, tailored to your specific needs, size of operation, equipment requirements, and industry regulations. We offer a complete line of concentrated or ready-to-use industrial cleaners. Floor scrubbers, machine cleaning, power washing, steam cleaning and general sanitation are all part of a comprehensive cleaning protocol, and Lynx is committed to maximizing your investment by completing the cleaning operations on time and within your budget.

Floor cleaning is a universal need, and Lynx has a wide array of products available to clean all types of floors in any facility. We provide a complete selection of high or low foaming detergents, along with custom-manufactured solutions for your specific requirements.

Lynx manufactures a complete line of:

- Citrus degreasers
- Low foaming floor cleaners
- Oil splitting cleaners
- Powdered cleaners
- General cleaners
- Biological cleaners

UNIQUE PRODUCTS & EQUIPMENT

Lynx offers specially designed high-pressure washers, a wide assortment of absorbents, as well as stand and storage tank systems to meet your exact cleaning needs. All Lynx equipment is designed for use with our cleaning solutions and are tested for trouble-free operation and effectiveness.

PRESSURE WASHERS

Electric and gas pressure washers are available and can be portable or permanently installed, depending upon your needs. Hot and cold capabilities, along with steam units and foamers provide heavy-duty cleaning power. Equipment is available for rent or lease, as well as purchase.

TANKS AND STANDS

The Drum-Buster® Program tank and stand system eliminates waste and saves valuable employee time. Tanks are available in a variety of sizes, with quick-connection fittings, and custom-fitted stands. Tanks are installed and maintained for **FREE**.

ABSORBENT PRODUCTS

Spill response requires quick action and effective absorbent products. Lynx provides both universal and oil absorbent sheets, perforated rolls, booms and socks. These are effective on both water and land spills.
