

Pretreatment for the Coatings Industry

INNOVATIVE CLEANING SOLUTIONS

Lynx offers you a complete line of pretreatment chemistry. Liquid or powder, our products have you covered. Our balanced blend of cleaners provide you with excellent cleaning and bath life. Whether cleaning typical shop soils or laser dross we have the solution.

We offer a full line of conversion coatings from ambient to high temperature, from ferrous to multi-metal, from spray wand to multi-stage wash systems, from iron phosphate to zinc; you can count on our high quality solutions that provide excellent salt spray results.

Our state of the art final seals add the security of excellent adhesion and extended corrosion protection.

Lynx offers dispensing equipment that provides ease of control assuring your critical control points are continually maintained.

This is combined with a delivery system envied by the industry. We can deliver in drums, totes or our **Drum-Buster™** mini-bulk tanks. **Lynx...Innovative Cleaning Solutions**
